All skill levels welcome!

Have you been wanting to take your art supplies outside to sketch, but....

you are hesitant about what supplies to bring and how best to carry them? Feel you need more drawing skills and/or you are just learning to use watercolor? Generally shy about sketching outside?

Join Pam for a fun, instructional day sketching Lowcountry beauty. On site demonstrations are followed by in-the-field sessions, structured for students to create journal pages while receiving one-on-one guidance/instruction from Pam. **Pack a lunch!** The day concludes with a show and tell, featuring pages created along with guidance for the next steps needed in the continuation of sketching plein air.

We'll be Walking and Sitting - Please read

As we meander down the trail, frequent stops are made to look, listen and capture the wonders observed in our journals. There is no shortage of discoveries to record. Wading birds, native plants and the ever graceful cypress trees are just some of delights to experience. There are no restroom facilities. However, we are just across from a few restaurants that call Paris Ave home. Park along Paris Avenue. The Cypress Wetlands Trail is very close to the intersection of Paris Avenue and Ribaut Road. We will meet at the amphitheater seating at the head of the trail, parallel to Paris Avenue.

Class Syllabus

Demonstrations will be followed up with one-on-one instruction while students sketch and paint
